BRIEFHISTORY

Unicane started in 1978 as a trading house of cane raw materials in Singapore because of her strategic location as an international trade gateway. As Unicane's volume increased, we started our own raw material processing plant to ensure consistent quality and supply. The success led to the startup of two furniture manufacturing plants in Indonesia, which are still rapidly growing even today! Today, we have a total of 4 rattan furniture factories, 5 raw material processing factories, and 1 wood factory.

Currently, the Unicane group can export worldwide approximately one hundred 40-ft containers of high-end furniture per month. Our prestigious list of customers in the hospitality industry includes renowned names such as the Singapore Raffles Hotel, London's Harrods Departmental Store, South Africa's Palace of the Lost City and even the MalaMala Hotel which was ranked number one in Travel & Leisure's 1997 World'S Top 100 Hotels. We have also supplied our quality furniture to a large number of Caribbean Island Hotels and Resorts.

UNICANE OUTDOOR LINES

Unicane exclusive furnishings for outdoor living offers consumers a wide range of styles, colors, and materials at affordable prices. Our furniture are made from rust proof aluminum and weather resistant hand woven resin wicker. Of course, all materials used are safe for the environment and 100% recyclable.

Our aluminum frame are heliarc hand welded and then polished smooth. Each frame are individually powder coated that gives the frame strength and durability.

Our superior-quality polyethylene-based resin wicker is characterized by high flexibility and tensile strength, similar to natural rattan. Our resin wicker is also richly colored throughout, smudge-proof, color fade proof, and resistant to temperature variations. In addition, it is very durable, as evidenced by its UV and weather-resistance independent testing.

Unicane supplies both in-house and OEM designs to suit our client various needs.
